

3.7	Independent claims containing a reference to another claim or to features from a claim of another category	<u>IV-3</u>
3.8	Claims directed to computer-implemented inventions	<u>IV-3</u>
3.8.1	Cases where all method steps can be fully implemented by generic data processing means	<u>IV-3</u>
3.8.2	Cases where method steps require specific data processing means and/or require additional technical devices as essential features	<u>IV-3</u>
3.8.3	Cases where the invention is realised in a distributed computing environment	<u>IV-3</u>
4.	Clarity and interpretation of claims	<u>IV-3</u>
4.1	Clarity	<u>IV-3</u>
4.2	Interpretation	<u>IV-3</u>
4.3	Inconsistencies	<u>IV-3</u>
4.4	General statements, "spirit" of invention	<u>IV-3</u>
4.5	Essential features	<u>IV-3</u>
4.5.1	Objections arising from missing essential features	<u>IV-3</u>
4.5.2	Definition of essential features	<u>IV-4</u>
4.5.3	Generalisation of essential features	<u>IV-4</u>
4.5.4	Implicit features	<u>IV-4</u>
4.5.5	Examples	<u>IV-4</u>
4.6	Relative terms	<u>IV-4</u>
4.7	Terms like "about", "approximately" and "substantially"	<u>IV-4</u>
4.8	Trademarks	<u>IV-4</u>
4.9	Optional features	<u>IV-4</u>
4.10	Result to be achieved	<u>IV-4</u>
4.11	Parameters	<u>IV-4</u>
4.12	Product-by-process claim	<u>IV-5</u>
4.12.1	Product claim with process features	<u>IV-5</u>
4.13	Interpretation of expressions stating a purpose	<u>IV-5</u>
4.14	Definition by reference to use or another entity	<u>IV-5</u>
4.15	The expression "in"	<u>IV-5</u>
4.16	Use claims	<u>IV-6</u>
4.17	References to the description or drawings	<u>IV-6</u>
